

[TUITION MANAGEMENT SYSTEM]

Date: [01/02/2020]

Guide: [Sr.Elsin Chakkalackal]

1. Project Overview?

A tuition management system ease the work of the staff, and admin as well as the students. All the required information can be obtained at single place. A system is most important if we want to maintain standard and correct track of the information in an institute and provide more security to the document if deploy correctly.

2. To what extend the system is proposed for?

Proposed system doesn't really require any paper work just a standard agreement, could be damage by any disaster but have option to create back up, replicas can be created only by some clicks and can restore anytime required. only require a standard device which can be used to access the internet and good to go, editing is not a problem. Increasing of files is also not an issue the automated system does everything like indexing, searching by itself and show user the abstract view. It can be accessed anytime

3. Specify the Viewers/Public which is to be involved in the System?

Staff, Students, Parents

4. List the Modules included in your System?

Admin module, Staff module, Student module

5. Identify the users in your project?

Staff, Students, Parents

6. Who owns the system?

Admin owns and control the system

7. System is related to which firm/industry/organization?

Tuition center

8. Details of person that you have contacted for data collection?

Gmail: binulalbalachandran@gmail.com
Contact info:9746873402

9. Questionnaire to collect details about the project? (min 10 questions, include descriptive answers, attach additional docs (e.g. Bill receipts, certificate models), if any?)

1. Which level of academia do you belong to?

Ans: We are belonging to high school and also provide some crash course for college students.

2. How did you find a tutor/tutors?

Ans: Using word of mouth and by publishing advertisement in social medias.

3. How does the Teacher assess if the students have learnt effectively?

Ans: Students will be given practices to do during class to assess their levels of understanding. Teachers will deliver the lessons in a clear and logical presentation. Feedback will be gathered from students and communication be made with parents (if need be) to ensure that effective learning has taken place. Homework is usually given to students in the primary levels.

4. What would you like to be changed in coming year?

Ans: We would like to automate our service so that public will get details and services of our institution.

5. In what aspect your institution differs from other centers?

Ans: We are planning to introduce a new technique in our website. That is exemplary tracking system. To monitor the performance of students. Students will get a chance to improve their excellence. Now we are implementing it manually with a high of success.

6. What if a student decides to stop in the middle of the month?

Ans: There will be no refund for lessons unattended should the student decide to stop halfway.

7. What are the syllabus you are handling?

Ans: State, CBSC, And ICSC syllabus.

8. How you managing the average students to improve their excellence?

Ans: We providing additional works and night class for them. Also, a daily assessment is there.

9. What qualifications do your tutors have?

Ans: All our tutors have a degree in their subject or a closely related degree.

10. When are fees collected?

Ans: First month fee will be collected at the time of registration. Subsequent fees for each course will be collected on a monthly basis at the start of each month. Payment of all fees is by cash and cheque only. All fees paid are non-refundable, non-transferable and non-negotiable.
